What do qaSignature and Star Trek have in common?

Dear Friends!

I am not kidding! We are going to Hollywood!

qaSignature is pleased to announce that it has been selected to appear on the Heartbeat of America TV series entitled "Keeping America Strong". This series highlights US companies that are making a significant contribution to business innovation and security in America in the post-9/11 world. qaSignature was selected because of its unique value proposition and ability to combat the offshore development forces with a more cost efficient process in USA.

A few weeks ago a guy with a pink tie showed up at qaSignature's door and introduced himself as a field producer of William Shatner's TV series entitled "Keeping America Strong." First of all you need to remember that I did not grow up in America and have no idea what Star Trek is. And for me, Captain Kirk means as probably as much as Shtirlic (extremely famous movie person from one of the most famous Russian TV series about the Great Patriotic War) does to you. So needless to say, being pretty busy, I almost showed the guy the door. But he took his time trying to explain that he is actually not a sales person and qaSignature was selected for TV series entitled "Keeping America Strong" with a small national audience of 10 million viewers.

To make the story short, we signed a contract naming Julia, Leonid and I a talent...and we're going to LA on May 26 for taping. The official date for national the TV appearance is not set up yet, so stand by. When we come back we'll tell you EVERYTHING.

So as always do not get mad, call Vlad.
