## Reporting from Hollywood (William Shatner and qaSignature)

Dear TV Junkies and Moviegoers!

We received unprecedented response and mega interest from our clients and friend before our trip to LA to appear on national TV program **Heartbeat of America** hosted by William Shatner and conducted by Doug Llewelyn, host of **The People's Court**.

For more information about the program please visit : [www.heartbeatofamerica.tv](http://www.heartbeatofamerica.tv).

In this news letter we will provide you with a brief report about the trip to the studios and some pre-show pictures for your enjoyment.

On the set we were joined by one of our clients/partners Dexter Sealy CTO and VP of Engineering of CardScan who generously agreed to come along and in front of 10 million viewers talk about great results his company is able to achieve with the help of qaSignature.

**Reducing testing time from 15 days and 4 people to 8 hours. This is something any company could be proud of!**

Dexter – Thank you very much! We greatly appreciate your support!

For more information about CardScan and its great product (we even bought it and are using it internally!) please visit [www.cardscan.com](http://www.cardscan.com).

From qaSignature, Julia Shamis, who is the CTO and happens to be my wife, talked how the company was born, and who really runs it :-)

Leonid Shpirt, our Chief Architect, who happens to be Julia's dad, talked about how qaSignature's famous methodology came about, and how this methodology, together with our harness and automation experts differentiate us from everybody else.

And of course I have being given a chance to talk about my attempts to take over the Microsoft. No kidding. The rest I frankly do not remember, but it is not important since within couple of month the program will be broadcast and you will be able see for yourselves how good I looked! ( Just kidding this time). After all I can blame it on the layers of make up that was put on me for the first time in my life.

I know you can no longer wait so, [please visit the following link to see us on the program!](#)
