6 Critical Reasons Why You Can't Afford To Delay Automating Your Software Testing

Critical Reason Number 2... Reduce The Time To Market.

Even if you monopolize your marketplace like Microsoft, a potential tactic to stay ahead or even catch up to your competitors is to continually work on reducing time to market. Leave your competition in the dust by positioning your company to bring new features to the market faster.

How can Quality Assurance impact Time to Market? This issue will talk about a simple tactic you can implement quickly to reduce your time to market and save you money.
