Receive The Benefits Early*****Get a Fast Start to Automation***

Dear Vlad,

One of the weaknesses of standard QA Automation Methodologies is the up front time and effort required before being able to write a line of automation code. Most Automation Consultants believe they must spend months learning the product before they can get started. Let's not forget, Time is Money. What is different about qaSignature's methodology?

Special Offer: 25% off the Proof of Concept Service (Offer good for new clients through December, 2007)***To Companies Who Want To Build QA Automation - But Can't Get Started. Take qaSignature For A Test Drive.***

We're so confident we can do what we say, we'll give you an opportunity to "take us for a test drive" with our low risk offer: QA Diagnostic and Proof Of Concept Test Drive Program. It's a great way to validate our process. Here's what our clients had to say.

"The amount of automation that they were able to develop in a couple of days including fact finding was impressive. Their competition could not even begin the process without first learning the application."

Keith Hillyard, Custom Engineering SQA Manager, Kronos

"The qaSignature proof of concept is a "no brainer." They delivered much more than we expected. The process helped us map out our QA Automation Framework."

Frank F. Frazier Jr., Senior Program Manager, ZANTAZ

"The dedication, enthusiasm and passion of the qaSignature team was refreshing. I would recommend them to anyone who needs to develop QA Automation."

Paul Bradley, Systems Consultant, DAFCA Inc.

"The proof of concept demonstrated the applicability of applying the qaSignature QA Automation Methodology to our Agile Development Process."

Keith Hillyard, Custom Engineering SQA Manager, Kronos

"I was impressed by qaSignature's objectivity. They recommended the right tool for the job even though it wasn't their standard offering. They really know QA Automation."

Larry Leonard, Director of Development, SmartTime
